

CHRISTIAN BEAM

FULL STACK DEVELOPER

PROFESSIONAL SUMMARY

Dynamic Full Stack Developer with proven expertise in React, Javascript, and Python, honed at OpenHouse Insurance. Successfully enhanced customer relationships through CRM development while fostering team collaboration in Agile environments. Currently managing a deli team at Detwiler's Farm Market, demonstrating strong leadership and commitment to quality service.

EXPERIENCE

Deli Manager

November 2023 - Present | Detwiler's Farm Market, Sarasota, FL

- Successfully managed a deli team of up to 8 employees, delegating tasks and ensuring quality customer service.
- Maintained cleanliness throughout the deli area, following all health code guidelines.
- Trained new hires on food safety standards and proper handling of equipment.
- Created daily schedules for staff members, balancing workloads and optimizing productivity.

Freelance Software Developer

September 2021 - Present | CkBeam Software, Port Charlotte, Florida

- As a freelance developer, I have leveraged my diverse skill set to deliver comprehensive software solutions
- My expertise is in Next.js/React, Typescript and Tailwind CSS
- I have also utilized Headless CMS for content management in projects
- Over the course of 2 years, I have worked on a variety of projects, each requiring a unique blend of technologies

Full Stack Software Developer

September 2022 - November 2023 | OpenHouse Insurance, Lake Mary, Florida

- As a Full Stack Developer at OpenHouse Insurance, I developed front-end systems with React and TypeScript, and back-end processes using Python and AWS Lambda functions
- A crucial part of my role was enhancing our customer relationships through CRM development with Zoho

SKILLS

- React
- JavaScript
- TypeScript
- Python
- AWS Lambda
- Agile Development
- Next.js
- Tailwind CSS

- Our team adhered to strict testing protocols, encompassing a thorough suite of unit tests for each software component
- My strong communication skills enhanced team collaboration, while my adaptability helped me excel in our Agile development framework, using GitHub and Jira for project management
- Beyond my role, I'm committed to continuous learning, staying updated with the latest industry trends through courses and certifications

Deli Team Lead | Assistant Manager | Deli Manager

August 2016 - August 2022 | Detwilers Farm Market, Venice, Florida

- In my role, I excelled in understanding and anticipating needs, maintaining meticulous attention to detail, and upholding quality standards
- My responsibilities ranged from managing product orders to ensuring safety, all while providing excellent customer service
- Additionally, my active participation in team reviews and coaching sessions enhanced my communication and collaboration skills

Full Stack Development Student

August 2021 - February 2022 | UCF Full Stack Bootcamp, Orlando, Florida

- During my six-month UCF Full Stack Web Development Bootcamp, I navigated a rigorous curriculum covering HTML, CSS, JavaScript, APIs, and backend development with SQL and NoSQL databases
- We then transitioned to React and the full MERN stack
- Developing diverse applications equipped me with the skills and confidence for implementing feature-rich full-stack applications, making the bootcamp instrumental in my preparation for industry challenges
